

CALL FOR PAPERS

ICIET 2020
Apr 16-17, 2020
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIET 2020 : International Conference on Imaging Engineering and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Imaging Engineering and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Imaging Science, Systems and Technology
3-D and Surface Reconstruction
Applications of image engineering
Coding and Transmission
Colour Analysis and Processing
Digital Fabrication Processes
Digital Image Processing, Manipulation and Archiving
Digital Printing Technologies
Display Technology
Document analysis
Electronic Imaging Devices
Entertainment Imaging Applications
Face Recognition

Image acquisition
Image coding and compression
Image Data Quality
Image processing
Image segmentation
Imaging Applications
Imaging in Computing and Business (Document imaging, metadata, quality control)
Imaging Technologies
Imaging Theory
Medical image processing
Medical Imaging (Radiology, Magnetic Resonance, Ultrasound, Brain mapping)
Pattern recognition and analysis
Physics Imaging (Radar imaging, Photoelectronics, Molecular imaging)
