

CALL FOR PAPERS

ICIMAPE 2020
Apr 16-17, 2020
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIMAPE 2020 : International Conference on Industrial, Mechanical, Automation and Production Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Industrial, Mechanical, Automation and Production Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mechanical Engineering	Tribology
Elasticity	Vibration and control
Fatigue and creep	Industrial and Production
Finite Element Method	Engineering
Fluid dynamics	Business Process Management and
Heat exchangers	Modeling
Mechanical behavior	Logistics and Supply Chain
Mechatronic	Management
Pressure vessels	Project Management
Solid mechanics	Quality and Management Engineering
Stress analysis	Implications of E-Manufacturing,
Thermodynamics	E-Business, E- Commerce
	Discrete Event Systems
	Systems Modeling and Simulation
	Dependability, Monitoring, and
	Supervision
