

CALL FOR PAPERS

ICIMAPE 2020
Apr 16-17, 2020
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIMAPE 2020 : International Conference on Industrial, Mechanical, Automation and Production Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Industrial, Mechanical, Automation and Production Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mechanical Engineering
Elasticity
Fatigue and creep
Finite Element Method
Fluid dynamics
Heat exchangers
Mechanical behavior
Mechatronic
Pressure vessels
Solid mechanics
Stress analysis
Thermodynamics

Tribology
Vibration and control
Industrial and Production
Engineering
Business Process Management and
Modeling
Logistics and Supply Chain
Management
Project Management
Quality and Management Engineering
Implications of E-Manufacturing,
E-Business, E- Commerce
Discrete Event Systems
Systems Modeling and Simulation
Dependability, Monitoring, and
Supervision
