

CALL FOR PAPERS

ICMCMSMM 2020
Apr 16-17, 2020
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMCMSMM 2020 : International Conference on Masonry Construction, Masonry Structures and Mechanical Modelling is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Masonry Construction, Masonry Structures and Mechanical Modelling. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Masonry construction
Applications
Advantages
Disadvantages
Structural limitations
Veneer masonry
Dry set masonry
Energy dissipation devices
Mechanical modelling of masonry structures
Brick masonry
Concrete masonry
Other masonry materials
Estimating quantity of masonry

Construction practice
Problems
Masonry construction techniques
Planning
Modular planning
Estimating materials
Construction preparation
Material delivery, storage and handling
Reinforcement, connectors and accessories
Semi-interlocking masonry
Brick
Uniformity and rusticity
Serpentine masonry
