

CALL FOR PAPERS

ICOEPCE 2020
Apr 16-17, 2020
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOEPCE 2020 : International Conference on Open Educational Practices and Childhood Education is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Open Educational Practices and Childhood Education. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Assessing student learning	Early childhood education
Employing pedagogy	Educational policies and practices
Teaching for individual differences	Humanities and social studies education
Implementing effective strategies	IT in education
Designing effective instruction	Language and literacy education
Integrating technology effectively	Learning sciences
Case based and problem based instruction	Mathematics education
Funding and publishing the scholarship of teaching and learning	School change and leadership
Creating domain specific pedagogy	Science education
The scope of open educational practices	Special needs education
Civics and moral education	Student performance and assessment
Cognition and learning	Teacher quality and teacher development
Curriculum development	Visual and performing arts
