

CALL FOR PAPERS

ICOFGM 2020
Apr 16-17, 2020
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOFGM 2020 : International Conference on Organic Farming and Gardening Methods is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Organic Farming and Gardening Methods. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Organic Agriculture	Controlling other organisms
Organic Farming	Livestock
Organic farming systems	Genetic modification
Organic farming methods and standards	World's food security
Organic Farming vs. Conservation Agriculture	Environmental impact and emissions
Organic farming economics	Nutrient leaching
Organic farming externalities	Land use
Organic food	Pesticides
Crop diversity	Food quality and safety
Soil management	Soil conservation
Weed management	Biodiversity
