

CALL FOR PAPERS

ICPANM 2020
Apr 16-17, 2020
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPANM 2020 : International Conference on Physical Agents and Noise Mapping is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Physical Agents and Noise Mapping. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Noise action plan
Transportation noise mitigation
Policies and good practices for traffic management, noise planning
Noise control
Industrial noise remediation
Evaluation of mitigation action performance
Physical agents: models and algorithms for source characterization and outdoor sound propagation

Environmental radioactivity
Radon and NORM
Optical radiations
Extremely low frequency fields
Radio and TV electromagnetic fields
5G
Electromagnetic fields and health effects
