

CALL FOR PAPERS

ICPAPR 2020
Apr 16-17, 2020
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPAPR 2020 : International Conference on Pattern Analysis and Pattern Recognition is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Pattern Analysis and Pattern Recognition. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

THEORY AND METHODS

Pattern Recognition and Machine Learning
Image, Speech, Signal and Video Processing
Document Analysis, Biometrics and Pattern Recognition Applications
Biomedical Image Analysis
Exact and Approximate Inference
ble Methods
Neural Networks
Kernel Methods
Large Margin Methods
Classification
Regression
Sparsity

Feature Selection and Extraction
Spectral Methods
Embedding and Manifold Learning
Similarity and Distance Learning
Matrix Factorization
Clustering
Fuzzy Logic
Active Learning
Cost-sensitive Learning
Incremental Learning
ion
Information Retrieval and Learning
Hybrid Learning Algorithms
