

CALL FOR PAPERS

ICPBACD 2020
Apr 16-17, 2020
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPBACD 2020 : International Conference on Plant Breeding in Agriculture and Cultivar Development is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Plant Breeding in Agriculture and Cultivar Development. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Abiotic stress tolerance
Biofortification
Breeding informatics
Cultivar development
DNA marker-aided breeding
Genetic engineering
Genome editing

Genomic estimated breeding values
for selection
Germplasm enhancement (or
pre-breeding)
Host plant resistance
Interspecific hybridization
Participatory plant breeding and
varietal selection
Plant genetic resources
Selection theory
