

CALL FOR PAPERS

ICPNMTP 2020
Apr 16-17, 2020
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPNMTP 2020 : International Conference on Photovoltaics, New Materials, Technologies and Processes is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Photovoltaics, New Materials, Technologies and Processes. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Photovoltaics
Photovoltaic systems
Photovoltaic technologies
Solar photovoltaic technologies
Solar cells
Residential photovoltaics
Utility-scale flat-plate thin film photovoltaics
Utility-scale photovoltaic concentrators
Photovoltaics and electricity

Performance assessment
Renewable energy cost analysis
Current developments
Efficiency of photovoltaic technologies
Environmental impacts of photovoltaic technologies
Applications
Advantages of photovoltaic technologies
New materials, technologies and processes
