

CALL FOR PAPERS

ICRCA 2020
Apr 16-17, 2020
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRCA 2020 : International Conference on Reproductive Cloning and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Reproductive Cloning and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Reproductive cloning and genetic engineering
Natural cloning
Molecular cloning
Cell cloning
Cloning unicellular organisms
Cloning stem cells
Organism cloning

Parthenogenesis
Artificial cloning of organisms
Methods
Species cloned
Human cloning
Ethical issues of cloning
Applications of reproductive biotechnology
