

# CALL FOR PAPERS

**ICSLR 2020**  
**Apr 16-17, 2020**  
**Cape Town, South Africa**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSLR 2020 : International Conference on Sea Level Rise is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sea Level Rise. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sea level rise  
Mechanism  
Past changes in sea level  
Projections  
21st century  
After 2100  
Models  
Global climate  
Climate change  
Human populations  
Coastal and island regions and  
natural environments  
Contribution  
Antarctica

East Antarctic ice sheet (EAIS)  
West Antarctic ice sheet (WAIS)  
Glaciers  
Greenland  
Subsidence and effective sea level  
rise  
Effects  
Island nations  
Cities  
Habitats  
Extreme sea level rise events  
Sea level measurement  
Satellites  
Tide gauge
