

CALL FOR PAPERS

ICSPPRA 2020
Apr 16-17, 2020
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSPPRA 2020 : International Conference on Signal Processing, Pattern Recognition and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Signal Processing, Pattern Recognition and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Signal Processing
Algorithms and Techniques
Architecture and Implementation
Discrete Cosine Transform
Fourier Transform
Fuzzy Logic
Hilbert Transform
Neural Networks for Signal
Processing
Wavelets
Audio and Video Processing
Audio and Electro Acoustics
HDTV
Multimedia

Speech Processing
Video Technology
Detection and Estimation
Computation
Estimation of Signal Parameters
Motion Detection
Prediction
Segmentation and Representation
Filters
Adaptive Filtering
Filter Designs and Structures
FIR and IIR Filters
Signal Reconstruction Using
Filters
