

CALL FOR PAPERS

ICSS 2020
Apr 16-17, 2020
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSS 2020 : International Conference on Superhydrophobic Surfaces is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Superhydrophobic Surfaces. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Superhydrophobicity
Recent developments in
superhydrophobic surfaces
Superhydrophobicity phenomena in
nature
The theory of superhydrophobic
surfaces
Fabrication of superhydrophobic
surfaces
Applications of superhydrophobic
surfaces
State-of-the-art studies on
corrosion resistant coatings using
superhydrophobic coatings
The stability of the
superhydrophobic surfaces

Natural superhydrophobic surfaces
The design of superhydrophobic
surfaces
Hydrophobicity of nonwetting soils
Superhydrophobic polymers
Metallic superhydrophobic surfaces
Applications of nanotextured
surfaces
Biological interactions with
superhydrophobic surfaces
