

# CALL FOR PAPERS

**ICAEND 2020**  
**Apr 24-25, 2020**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAEND 2020 : International Conference on Analysis of Electromyogram and Neuromuscular Disorders is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Analysis of Electromyogram and Neuromuscular Disorders. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electrophysiologic techniques in  
the evaluation of common and  
uncommon neuromuscular disorders  
Electrodiagnostic instrumentation  
Analysis of Electromyogram  
Navigated brain stimulation  
Electrodiagnostic Medicine  
Instrumentation Pitfalls:  
Interelectrode separation and  
filters  
Motor and sensory nerve conduction

Motor nerve conduction studies  
EMG simulator  
Paired pulse transcranial magnetic  
stimulation (TMS) methods  
Nerve Conduction Studies  
Motor unit potentials  
Needle EMG
