

CALL FOR PAPERS

ICAGF 2020
Apr 24-25, 2020
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAGF 2020 : International Conference on Artificial Ground Freezing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Artificial Ground Freezing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Ground freezing
Artificial ground freezing in geotechnical engineering
Performance and analysis of artificial ground freezing
Thermo-hydraulic modeling of artificial ground freezing
Ground freezing technique for soil stabilization
Ground freezing in tunnel construction

Modeling and optimization of ground freezing in tunneling
Traditional tunnel excavation using ground freezing technology
Ground freezing for cross passage construction
Application of ground freezing for underground construction
Ground freezing and climate change
Economics of ground freezing
