

CALL FOR PAPERS

ICBCM 2020
Apr 24-25, 2020
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBCM 2020 : International Conference on Bayesian Cognitive Modeling is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bayesian Cognitive Modeling. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bayesian cognitive science
Bayesian cognitive modeling
Bayesian inference and cognitive modeling
Computational level of analysis
Bayesian approaches to brain function
Bayes rule in perception, action and cognition

Bayesian modeling of human concept learning
Bayesian learning theory applied to human cognition
Bayesian models of cognition
Bayesian analysis of cognitive models
Bayesian models of cognitive development
