

CALL FOR PAPERS

ICBSMC 2020
Apr 24-25, 2020
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBSMC 2020 : International Conference on Biomimetic Synthesis and Medicinal Chemistry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biomimetic Synthesis and Medicinal Chemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biomimetic synthesis
Biomimetic synthesis of nanoparticles
Biomimetic synthesis of natural products
Biomimetic materials synthesis
Biomimetic biodegradability
Biomimetic mechanical properties
Biomimetic chemistry
Biomimetic approach in inorganic material chemistry

Artificial enzymes, molecular recognition and bioinspired reactivity
Synthesis of biomimetic materials for bioengineering applications
Synthesis of biomimetic materials for tissue engineering
Crystal engineering
Microstructural fabrication
Cell material interaction and mineralized biology
Biologically inspired engineering
