

CALL FOR PAPERS

ICCBMCG 2020
Apr 24-25, 2020
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCBMCG 2020 : International Conference on Coal Bed Methane and Coal Geology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Coal Bed Methane and Coal Geology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Formation and evolution of coal and coal bearing sequence
Modern peat-forming processes and environments
Petrology and petrophysics of coal

Organic and inorganic geochemistry and mineralogy of coal and coal bearing sediments
Rare metals in coal and coal-bearing sequences
