

# CALL FOR PAPERS

**ICCCBS 2020**  
**Apr 24-25, 2020**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCBS 2020 : International Conference on Complex Computer-Based Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Complex Computer-Based Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Computer-based systems
- Adaptive computing
- Agile development
- Architectures
- Aspect-oriented software development
- Autonomic systems
- Co-design
- Component-based system design
- Design evolution
- Distributed systems design
- ECBS infrastructure
- Education and training
- Embedded real-time software systems

- Integration engineering
- Lifecycle processes and process evolution
- Model-based system development
- Modeling and analysis of complex systems
- Open systems
- Product lines
- Reengineering and reuse
- Reliability, safety, dependability, and security
- Requirements engineering
- Standards
- System on a chip
- System assessment, testing, and metrics
