

# CALL FOR PAPERS

**ICDMP 2020**  
**Apr 24-25, 2020**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDMP 2020 : International Conference on Data Mining for Politics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Data Mining for Politics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Data mining in politics  
Political dataset collection,  
dimensionality reduction, cleaning,  
and processing  
Automated or assisted fact-checking  
of news articles and political  
speech, and identification of fake  
news  
Applications of big data analytics  
to election campaigns  
Sentiment analysis to predict  
political opinions

Social network analysis as a tool  
for political influence and  
prediction  
Data-oriented innovations in  
politics  
Case studies of data mining tools  
for politics  
Data-driven approaches to  
monitoring and fighting terrorist  
networks
