

# CALL FOR PAPERS

**ICEEM 2020**  
**Apr 24-25, 2020**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEEM 2020 : International Conference on Electrical Engineering and Microprocessors is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electrical Engineering and Microprocessors. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Microcircuits

Modelling and Simulation

Electronics for Signal Processing  
and other Applications

Circuits and Electronics for Data  
Conversion

Circuits and Systems for Control  
and Robotics

Semiconductors and

Superconductivity Circuits

Circuits in Power Technology

Digital Architecture and Systems

Electrical and Electronic

Measurement

Circuit Models for Electromagnetic  
Fields

Fuzzy Logic and Circuits Design

Circuit Modelling and Scientific

Computing with Applications in

Science and Engineering

Circuits for Power Management in

Digital Applications

Signal Processing

Filter Design and Structures

Microprocessors and Microcomputers

Computerised Signal Processing

Signal and System Modeling

Speech Enhancement and Noise

Reduction
