

CALL FOR PAPERS

ICFMP 2020
Apr 24-25, 2020
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFMP 2020 : International Conference on Forest Microbiology and Pathology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Forest Microbiology and Pathology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Forest microbiology
Forest microbiology and
biochemistry
Environmental microbiology
Soil microbiology, ecology and
biochemistry
Forest pathology
Wood microbiology
Forest mycology and plant
pathology
Structural, chemical and moisture
features of wood
General features, signs and effects
on wood anatomy of wood decay.
Trends in wood microbiology
research
Wood deterioration agents
Forest pathology
Impact of adverse environmental
conditions on trees

Forest ecosystems
Effects of air pollution of forest
health
The impacts of climate change
impacts on forests
Forest health management
Forest pathological problems and
their sources
Abiotic factors and biotic factors
affecting forest health
Parasitic flowering plants
Hazard trees
Invasive species
Signs and symptoms of forest
diseases
Pathology detection and prevention
Climate change and forest health
Forest health monitoring and
management
