

# CALL FOR PAPERS

**ICGDTS 2020**  
**Apr 24-25, 2020**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGDTS 2020 : International Conference on Geosciences, Dynamic Tectonics and Seismology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Geosciences, Dynamic Tectonics and Seismology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Exploration geology  
Geographic information systems  
Management of geoscientific data by geological surveys  
Rock mechanics applied to seismology  
Deep seismic soundings and deep geologic repositories  
Earthquake and structural engineering  
Structural geology and tectonics  
Dynamic tectonics and seismology  
Sedimentology and costal process  
Exploration, development and production of earth  
Mining and mineral exploration

geology and mineral resources  
Mineral processing, waste management and recycling  
Geological map of the world  
Mapping and regional geochemistry  
Geochemical exploration  
Geosphere-biosphere interactions  
Petroleum and environmental geology  
Igneous and metamorphic petrology  
Mineralogy, petrology and geochemistry  
Geochronology including for crude oils and oil deposits  
Industrial processes and ore beneficiation
