

CALL FOR PAPERS

ICIET 2020
Apr 24-25, 2020
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIET 2020 : International Conference on Informatics Engineering and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Informatics Engineering and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Informatics engineering	Wireless networks and communications
Computational complexity	Ubiquitous systems
Informatics in complexity sciences	Theoretical foundations
Complex computer system	Gaming technologies
Business intelligence and data warehousing	Statistical computation
Knowledge and information engineering	Structural informatics
Multimedia systems and human-machine interaction	Computation finance
Natural language processing	Operations and supply chain management
Artificial intelligence and robotics	Security and assurance
Database and data mining	Bio-medical informatics
Software engineering	Semantic web and web services
Health informatics	Neuro-computing and applications
Pervasive computing and ad hoc networking
