

# CALL FOR PAPERS

**ICLDET 2020**  
**Apr 24-25, 2020**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICLDET 2020 : International Conference on Livestock Diseases, Epidemiology and Treatment is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Livestock Diseases, Epidemiology and Treatment. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Veterinary sciences, livestock, treatment and epidemiology

Veterinary ethics, statistics and research

Livestock disease: beef herd fertility, bluetongue, black disease, etc.

Disease prevention

Emergency preparedness

considerations for natural disaster(s) and foreign animal disease(s)

Anatomy bases of animals used in experimental research

Veterinary pathology

Anesthetic techniques

Drug administration methods

Surgery basics

Biological sample collection

Preservation and monitoring of experimental animals

Surgical microscope

Special surgery instruments

Surgical knots and sutures

Vascular and nerve anastomosis on biological material

Infectious diseases and zoonoses

Food safety and food security

Veterinary epidemiology

Nutrition and metabolism of disease

Veterinary orthopedics

Mass destruction of animals for disease control
