

CALL FOR PAPERS

ICMASTRM 2020
Apr 24-25, 2020
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMASTRM 2020 : International Conference on Mechanical Actuator Systems, Translation and Rotational Motion is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mechanical Actuator Systems, Translation and Rotational Motion. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mechanical actuator systems
Actuation in mechatronic systems
Power amplification and modulation stage
Energy conversion stage
Hydraulic and pneumatic systems
Symbols for hydraulic and pneumatic systems
Pumps, valves and compressors
Kinematic chains
Cams and gears
Belt and chain drives
Mechanical elements

Machines
Types of motion
Translation motion
Rotational motion
Constant velocity motion
Constant acceleration motion
Harmonic motion
Ratchet mechanisms
Flexible mechanical design of clutches
Mechanical actuator interface system for robotic tools
