

# CALL FOR PAPERS

**ICMB 2020**  
**Apr 24-25, 2020**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMB 2020 : International Conference on Microbial Biosensors is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Microbial Biosensors. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Microbial biosensors  
Applied microbiology  
Technology and applications of microbial biosensor  
Microbial biosensors for environmental monitoring  
Sensing techniques  
Recent progress in microbial biosensors

Advantages of using microorganisms as biosensing elements  
Immobilization of microorganisms  
Electrochemical microbial biosensor  
Optical microbial biosensor  
Microbial research and nano-biosensors  
Bioluminescent microbial biosensors
