

CALL FOR PAPERS

ICOCMCOT 2020
Apr 24-25, 2020
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOCMCOT 2020 : International Conference on Organometallic Chemistry and Metal Catalyzed Organic Transformations is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Organometallic Chemistry and Metal Catalyzed Organic Transformations. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Catalysis
Metal catalyzed organic transformations
Organotransition metal chemistry
Mechanistic organometallic chemistry

Biologically active organometallic compounds
Metal hydrides
Organometallic reactions in alternative media
Aqueous organometallic chemistry
