

# CALL FOR PAPERS

**ICPCPCP 2020**  
**Apr 24-25, 2020**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPCPCP 2020 : International Conference on Peptide Chemistry, Peptidomimetics and Constrained Peptides is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Peptide Chemistry, Peptidomimetics and Constrained Peptides. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Solid phase peptide synthesis  
Peptide coupling agents  
Chemical ligation  
Bioactive peptides  
Cyclic peptides  
Antimicrobial peptides  
Glycopeptides

Phosphopeptides  
Peptidomimetics and constrained peptides  
Natural products  
Biosynthesis  
Peptide materials  
Self-assembly
