

# CALL FOR PAPERS

**ICPDR 2020**  
**Apr 24-25, 2020**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPDR 2020 : International Conference on Pharmaceutics and Dosage Regimens is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Pharmaceutics and Dosage Regimens. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bio-pharmaceutics and pharmaceutics	Design and optimization of dosage regimens
Pharmacy practice	Drug development
Pharmaceuticals testing	Drug metabolism and interactions
Pharmaceutical chemistry	Nursing pharmacology
Pharmaceutical crops	Personalized medicine
Pharmacology and antibiotics	Pharmacogenetics and pharmacogenomics
Drug discovery and development	Serotonin pharmacology
Protein-protein interactions as drug targets	Characterization of drugs and bio-therapeutics
Adrenergic drugs	Applications of ADME in early drug discovery
Anesthesia pharmacology	Rapid methods to assess quality and stability of bio-therapeutics
Application of membrane protein structure determination and its applications in drug design	Cholinergic drugs
Chemotherapy and other anti-neoplastic drugs	Pharmacokinetics and pharmacodynamics
Clinical pharmacology and pharmacy
