

CALL FOR PAPERS

ICRECTST 2020
Apr 24-25, 2020
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRECTST 2020 : International Conference on Renewable Energy Conversion, Transmission and Storage Technologies is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Renewable Energy Conversion, Transmission and Storage Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Renewable energy conversion,
transmission and storage
Principles of energy conversion
Thermodynamic engine cycles
Heat energy conversion processes
Direct thermoelectric conversion
Engine conversion
Heat pumps
Geothermal energy conversion
Mechanical energy conversion
processes
Flow-driven converters
Propeller-type converters
Crosswind and other alternative
converter concepts
Hydro energy conversion

Magneto hydrodynamic converters
Wave energy converters
Specific radiation energy
conversion processes
Photovoltaic conversion
Photoelectrochemical conversion
processe
Solar thermal converters
Solar thermal electricity
generators
Solar cooling and other
applications
Fuel cells
Battery applications
Specific bioenergy conversion
processes
Biological conversion to gaseous
fuels
Biological conversion to liquid
fuels
