

# CALL FOR PAPERS

**ICRTPCT 2020**  
**Apr 24-25, 2020**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRTPCT 2020 : International Conference on Recent Trends in Pollution Control Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Recent Trends in Pollution Control Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Pollution control technologies

Control of particulate matter in gaseous emissions

Control of gaseous pollutants

Pollution control through efficient combustion technology

Quality and pollution control technologies for water, air, and soil

Pollution control in industrial processes

Pollution control in transportation

Air pollution control systems

Bioremediation technologies

Oil spill remediation technologies

Vehicle emission controls

Waste treatment technology

Water treatment

Pollution

Sound pollution

Radioactive pollution

River pollution

Coal pollution

Groundwater pollution

Sea pollution

Chemical pollution

Agricultural pollution

Environmental pollution

Air pollution

Water pollution

Waste disposal
