

# CALL FOR PAPERS

**ICSDTE 2020**  
**Apr 24-25, 2020**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSDTE 2020 : International Conference on Seismic Data and Telescience Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Seismic Data and Telescience Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Seismic data  
Waveforms, hypocenters  
Geophysical database  
Global, regional, and local  
networks  
Project oriented data

Seismic arrays  
Telescience engineering  
Realtime monitoring  
Disaster prevention parameters  
Early warning system
