

CALL FOR PAPERS

ICSECSC 2020
Apr 24-25, 2020
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSECSC 2020 : International Conference on Software Engineering, Computer Systems and Communications is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Software Engineering, Computer Systems and Communications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Software Engineering
Aspect-orientation and feature interaction
Computer supported cooperative work
Distribution and parallelism
Empirical software engineering and metrics
Object-oriented techniques
Programming languages
Requirements engineering
Software architectures and design
Software components and reuse
Software engineering education
Software maintenance and evolution
Software policy and ethics

Software processes and workflows
Software quality
Software security, safety and reliability
Software testing and analysis
Software tools and development environments
Theory and formal methods
Computer Systems and Communications
Data Management in Mobile
Peer-to-Peer Networks
Data Stream Processing in
Mobile/Sensor Networks
Information Security and Forensics
Mainframe Technology
Mobile Communications
