

CALL FOR PAPERS

ICUASAST 2020
Apr 24-25, 2020
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICUASAST 2020 : International Conference on Unmanned Aerial Systems and Aerospace Sensor Technologies is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Unmanned Aerial Systems and Aerospace Sensor Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Unmanned aerial systems
Autonomous systems
Aerospace sensor technologies
Aerodynamic technologies
Systems engineering
Guidance navigation and control
Unmanned systems operational analysis
Air traffic management
System of systems simulation
Aerospace design and optimization

Aerospace propulsion
Smart materials and structures
Composite structures and health monitoring
Rotorcraft
Flight safety
Reconfigurable
Fault tolerant control
Flight dynamics
Small unmanned aerial vehicles
