

CALL FOR PAPERS

ICWMAB 2020
Apr 27-28, 2020
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWMAB 2020 : International Conference on Waste Management and Advanced Biotechnology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Waste Management and Advanced Biotechnology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Farm buildings, equipment,
structures and environment
Agricultural products and food
engineering
Advanced machinery engineering and
manufacturing systems
Animal production systems
engineering
Agricultural machinery and
livestock technology
Food science and automation
technology
Agricultural production and
processing facility technology

Farm and ranch management
Crop management with precision
farming
Fundamental and applied aspects of
food biotechnology
Food and agricultural biosecurity
Precision agriculture and crop
monitoring
Natural resource and ecology
management
Waste management and utilization
for biosystems
