**Apr 16-17, 2020**  
**Lisbon, Portugal**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMWC 2020 : International Conference on Millimeter-Wave Communications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Millimeter-Wave Communications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Channel measurement, modeling, and estimation  
Antenna design and antenna measurement  
Beamforming and energy efficiency  
Commercial hardware design and development  
MIMO and massive MIMO (m-MIMO)

Multicell cooperation  
Network planning and interference  
System performance assessment and optimization  
New case uses and applications
