

CALL FOR PAPERS

ICWCMCT 2020
Apr 16-17, 2020
Lisbon, Portugal

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWCMCT 2020 : International Conference on Wireless Communications and Mobile Computing Technology is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wireless Communications and Mobile Computing Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wireless Communications

Space-Time, MIMO and Adaptive Antennas

OFDM, CDMA and Spread Spectrum Modulation, Coding and Diversity
Signal Processing for Wireless Communications

3G/4G Systems, WiMAX, WLAN and WPAN

Channel Model and Characterization

Multi-Hop and Cooperative Communications

Interference Cancellation and MUD

Radio Resource Management and Allocation

Cognitive Radio and Software

Defined Radio

Satellite and Space Communications

Multimedia Communications

Multiple Access Techniques

Optical Communications

Network Technologies

Wireless and Mobile Networking

Wireless Sensor Networks

Cognitive Radio Networks

Ad Hoc, Sensor and Mesh Networking

Next-Generation Networking and Internet

Wireless Network Security and Privacy

Networking and Information

Security

Network Protocol and Congestion Control

QoS, Reliability and Performance

Modeling
