

# CALL FOR PAPERS

**ICWCMCT 2020**  
**Apr 16-17, 2020**  
**Lisbon, Portugal**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWCMCT 2020 : International Conference on Wireless Communications and Mobile Computing Technology is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wireless Communications and Mobile Computing Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

## Wireless Communications

Space-Time, MIMO and Adaptive Antennas  
OFDM, CDMA and Spread Spectrum Modulation, Coding and Diversity  
Signal Processing for Wireless Communications  
B3G/4G Systems, WiMAX, WLAN and WPAN  
Channel Model and Characterization  
Multi-Hop and Cooperative Communications  
Interference Cancellation and MUD  
Radio Resource Management and Allocation  
Cognitive Radio and Software Defined Radio  
Satellite and Space Communications  
Multimedia Communications

Multiple Access Techniques  
Optical Communications  
Network Technologies  
Wireless and Mobile Networking  
Wireless Sensor Networks  
Cognitive Radio Networks  
Ad Hoc, Sensor and Mesh Networking  
Next-Generation Networking and Internet  
Wireless Network Security and Privacy  
Networking and Information Security  
Network Protocol and Congestion Control  
QoS, Reliability and Performance Modeling
