

# CALL FOR PAPERS

**ICQCCQS 2020**  
**Apr 23-24, 2020**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICQCCQS 2020 : International Conference on Quantum Cybernetics and Complex Quantum Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Quantum Cybernetics and Complex Quantum Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Quantum systems and cybernetics  
Applications of quantum cybernetics  
Cybernetics approach to quantum systems  
Systemology and quantum mechanics  
Applications of quantum systems  
quantum physics and quantum engineering  
Features of quantum mechanics

Quantum computers and communication systems  
Precision metrology, nanoscale electromechanical systems and quantum optical systems  
Quantum control  
Quantum networks  
Quantum communications  
Quantum computation and processing systems  
Quantum device engineering
