

# CALL FOR PAPERS

**ICSDFMFP 2020**  
**Apr 23-24, 2020**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSDFMFP 2020 : International Conference on Software Design Methods and Functional Programming is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Software Design Methods and Functional Programming. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Software design methods Strategies  
Structured design  
Function oriented design  
Design process  
Object oriented design  
Design process  
Software design approaches  
Top down design  
Bottom-up design  
Software design complexity  
Software implementation  
Structured programming

Functional programming  
Programming style  
Data elements  
Data store  
Data processing  
Software design levels  
Modularization  
Concurrency  
Cohesion  
Coupling  
Design verification
