

CALL FOR PAPERS

ICSSTMA 2020
Apr 23-24, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSSTMA 2020 : International Conference on Software System Testing Methods and Approaches is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Software System Testing Methods and Approaches. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Software system testing
Software validation
Software verification
Manual vs automated testing
Testing approaches
Black-box testing
White-box testing
Testing levels
Unit testing
Integration testing
System testing
Acceptance testing
Regression testing

Testing documentation
Before testing
While being tested
After testing
Testing methods
Static vs dynamic testing
The box approach
White-box testing
Black-box testing
Visual testing
Grey-box testing
Testing types
Testing process
