

CALL FOR PAPERS

ICFSM 2020
Apr 23-24, 2020
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFSM 2020 : International Conference on Forest Science and Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Forest Science and Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Forest management	Biodiversity
Silviculture, protection, and forest regulation	Community forestry
Forest management for aesthetics	Environmental protection
Forest management for recreation	Forest farming
Forest management for urban values	Forest informatics
Forest management for water	Forest inventory
Forest management for wilderness	Forest plans
Forest management for wildlife	Nature
Forest management for wood products	Sustainable development
Forest management for forest genetic resources	Sustainable forest management
Forest resource values
