

# CALL FOR PAPERS

**ICFFNFFT 2020**  
**Apr 16-17, 2020**  
**Paris, France**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFFNFFT 2020 : International Conference on Fossil Fuels and New Fossil Fuel Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fossil Fuels and New Fossil Fuel Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Fossil fuel technology  
Fossil fuels and environmental effects  
Limits and alternatives of fossil fuels  
Carbon based fossil energy sources  
Fossil fuels: Natural gases, oil and coal  
Energy and environmental policy  
Geopolitics of oil and natural gas  
Regulation and regulation uncertainties  
Oil and gas transportation and pipelines  
Oil reserves and production  
Carbon trading and taxation  
Technology adoption prospects and policies  
Integration of intermittent power sources

Energy storage and network balancing  
Vertical integration versus unbundling  
Grid integration and infrastructure  
Computing, data and energy system modelling  
Distributed generation issues  
Policy, targets and resource efficiency  
Prospects for alternative transportation fuels  
Energy and sustainable development  
Energy efficiency challenges  
Prospects for nuclear power  
Prospects of CCS technologies  
Shale fuel reserves, economics and sustainability  
Low carbon heat and power (CCS, Nuclear, Wind, Solar, Hydro, etc.)
