

# CALL FOR PAPERS

**ICPPI 2020**  
**Apr 16-17, 2020**  
**Paris, France**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPPI 2020 : International Conference on Petrochemistry and Petrochemical Industry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Petrochemistry and Petrochemical Industry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Petrochemistry and chemical engineering	Fuel chemistry, technology and processing
Petrochemical engineering	Petroleum geology
Renewable energy and feedstock	Drilling and well completions challenges
New methods and technologies in petrochemistry and oil-refining	Upstream and downstream processes
Processes for bulk and fine chemicals	Chemical health and safety
Modeling and simulation	Renewable energy and feedstock
New concepts and innovations	Coal and gas
Chemical reaction engineering and its applications	Colloid and surface chemistry
Macro and nano science technology	Filtration and separation
Sources, ecological problems and management of petrochemistry	Fluid flow and transfer process
Chemical applications in producing oil and gas	Process chemistry and technology
Energy, environment and water nexus	Chemical reaction engineering
Chemical applications in producing oil and gas	Applied catalysis
