

# CALL FOR PAPERS

**ICREEI 2020**  
**Apr 16-17, 2020**  
**Paris, France**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICREEI 2020 : International Conference on Renewable Energy and Energy Industry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Renewable Energy and Energy Industry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Clean energy technologies and management  
Technology adoption prospects and policies  
Integration of intermittent power sources  
Energy storage and network balancing  
Vertical integration versus unbundling  
Grid integration and infrastructure  
Computing, data and energy system modelling  
Distributed generation issues  
Policy, targets and resource efficiency  
Prospects for alternative transportation fuels  
Energy and sustainable development  
Energy efficiency challenges  
Energy and environmental policy

Geopolitics of oil and natural gas  
Oil and gas transportation and pipelines  
Oil reserves and production  
Prospects for nuclear power  
Prospects of CCS technologies  
Shale fuel reserves, economics and sustainability  
Low carbon heat and power (CCS, Nuclear, Wind, Solar, Hydro, etc.)  
Low carbon transport (Fuel Cells and Hydrogen)  
Regulation and regulation uncertainties  
Risk management issues in the energy sector  
Security of supply issues  
Distributed generation  
Carbon trading and taxation
