

CALL FOR PAPERS

ICCATCS 2020
Apr 08-09, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCATCS 2020 : International Conference on Construction Automation Technologies and Construction Standards is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Construction Automation Technologies and Construction Standards. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Green construction
Green building
Sustainable building
Green construction materials and technologies
Construction management
Construction method and system
Reducing environmental impact
Goals of green building
Life cycle assessment
Siting and structure design
efficiency

Energy efficiency
Water efficiency
Materials efficiency
Indoor environmental quality enhancement
Operations and maintenance optimization
Waste reduction
Cost and payoff
Regulation and operation
International frameworks and assessment tools
