

CALL FOR PAPERS

ICCSCAS 2020
Apr 08-09, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSCAS 2020 : International Conference on Construction Sequencing and Computer Aided Scheduling is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Construction Sequencing and Computer Aided Scheduling. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Construction sequencing	
Construction phasing and sequencing	
Coordination of the construction schedule	
Construction planning and scheduling	
Planning techniques	
Procedures and methods	
Estimation of resource requirements	
Scheduling systems	
Monitoring and control	
Formalization of construction sequencing	
Automated construction sequencing and scheduling	
Computer aided scheduling	
Construction management	
	Erosion- and sedimentation-control measures
	Vegetation protection
	Access points
	Sediment traps
	Runoff controls
	Runoff conveyance systems
	Land clearing and grading
	Surface stabilization
	Building construction
	Landscaping and final stabilization
	Common problems
	Maintenance
