

# CALL FOR PAPERS

**ICMBE 2020**  
**Apr 08-09, 2020**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMBE 2020 : International Conference on Marine Biotechnology and Environment is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Marine Biotechnology and Environment. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Marine Biotechnology and Microbiology  
Biotechnology, Tools and Methods  
Marine Biotechnology  
Aquaculture  
Marine Natural Products  
Marine Microbiology and Biodiversity  
Marine-based Drug Discovery and Development  
Genomics and Proteomics of Marine Organisms  
Aquatic Microbial Ecology  
Marine biological resources  
marine natural products

bioproducts and bioactive compounds  
marine microbiology and biodiversity  
marine-based drug discovery and development  
genomics and proteomics of marine organisms  
aquatic microbial ecology  
marine chemical ecology  
marine food processing and food safety  
Environment applications of marine biotechnology  
Biopharmaceuticals discovery, vaccines, antibodies and protein engineering  
quantitative and systems pharmacology.
